# CHADAROO WHITEPAPER

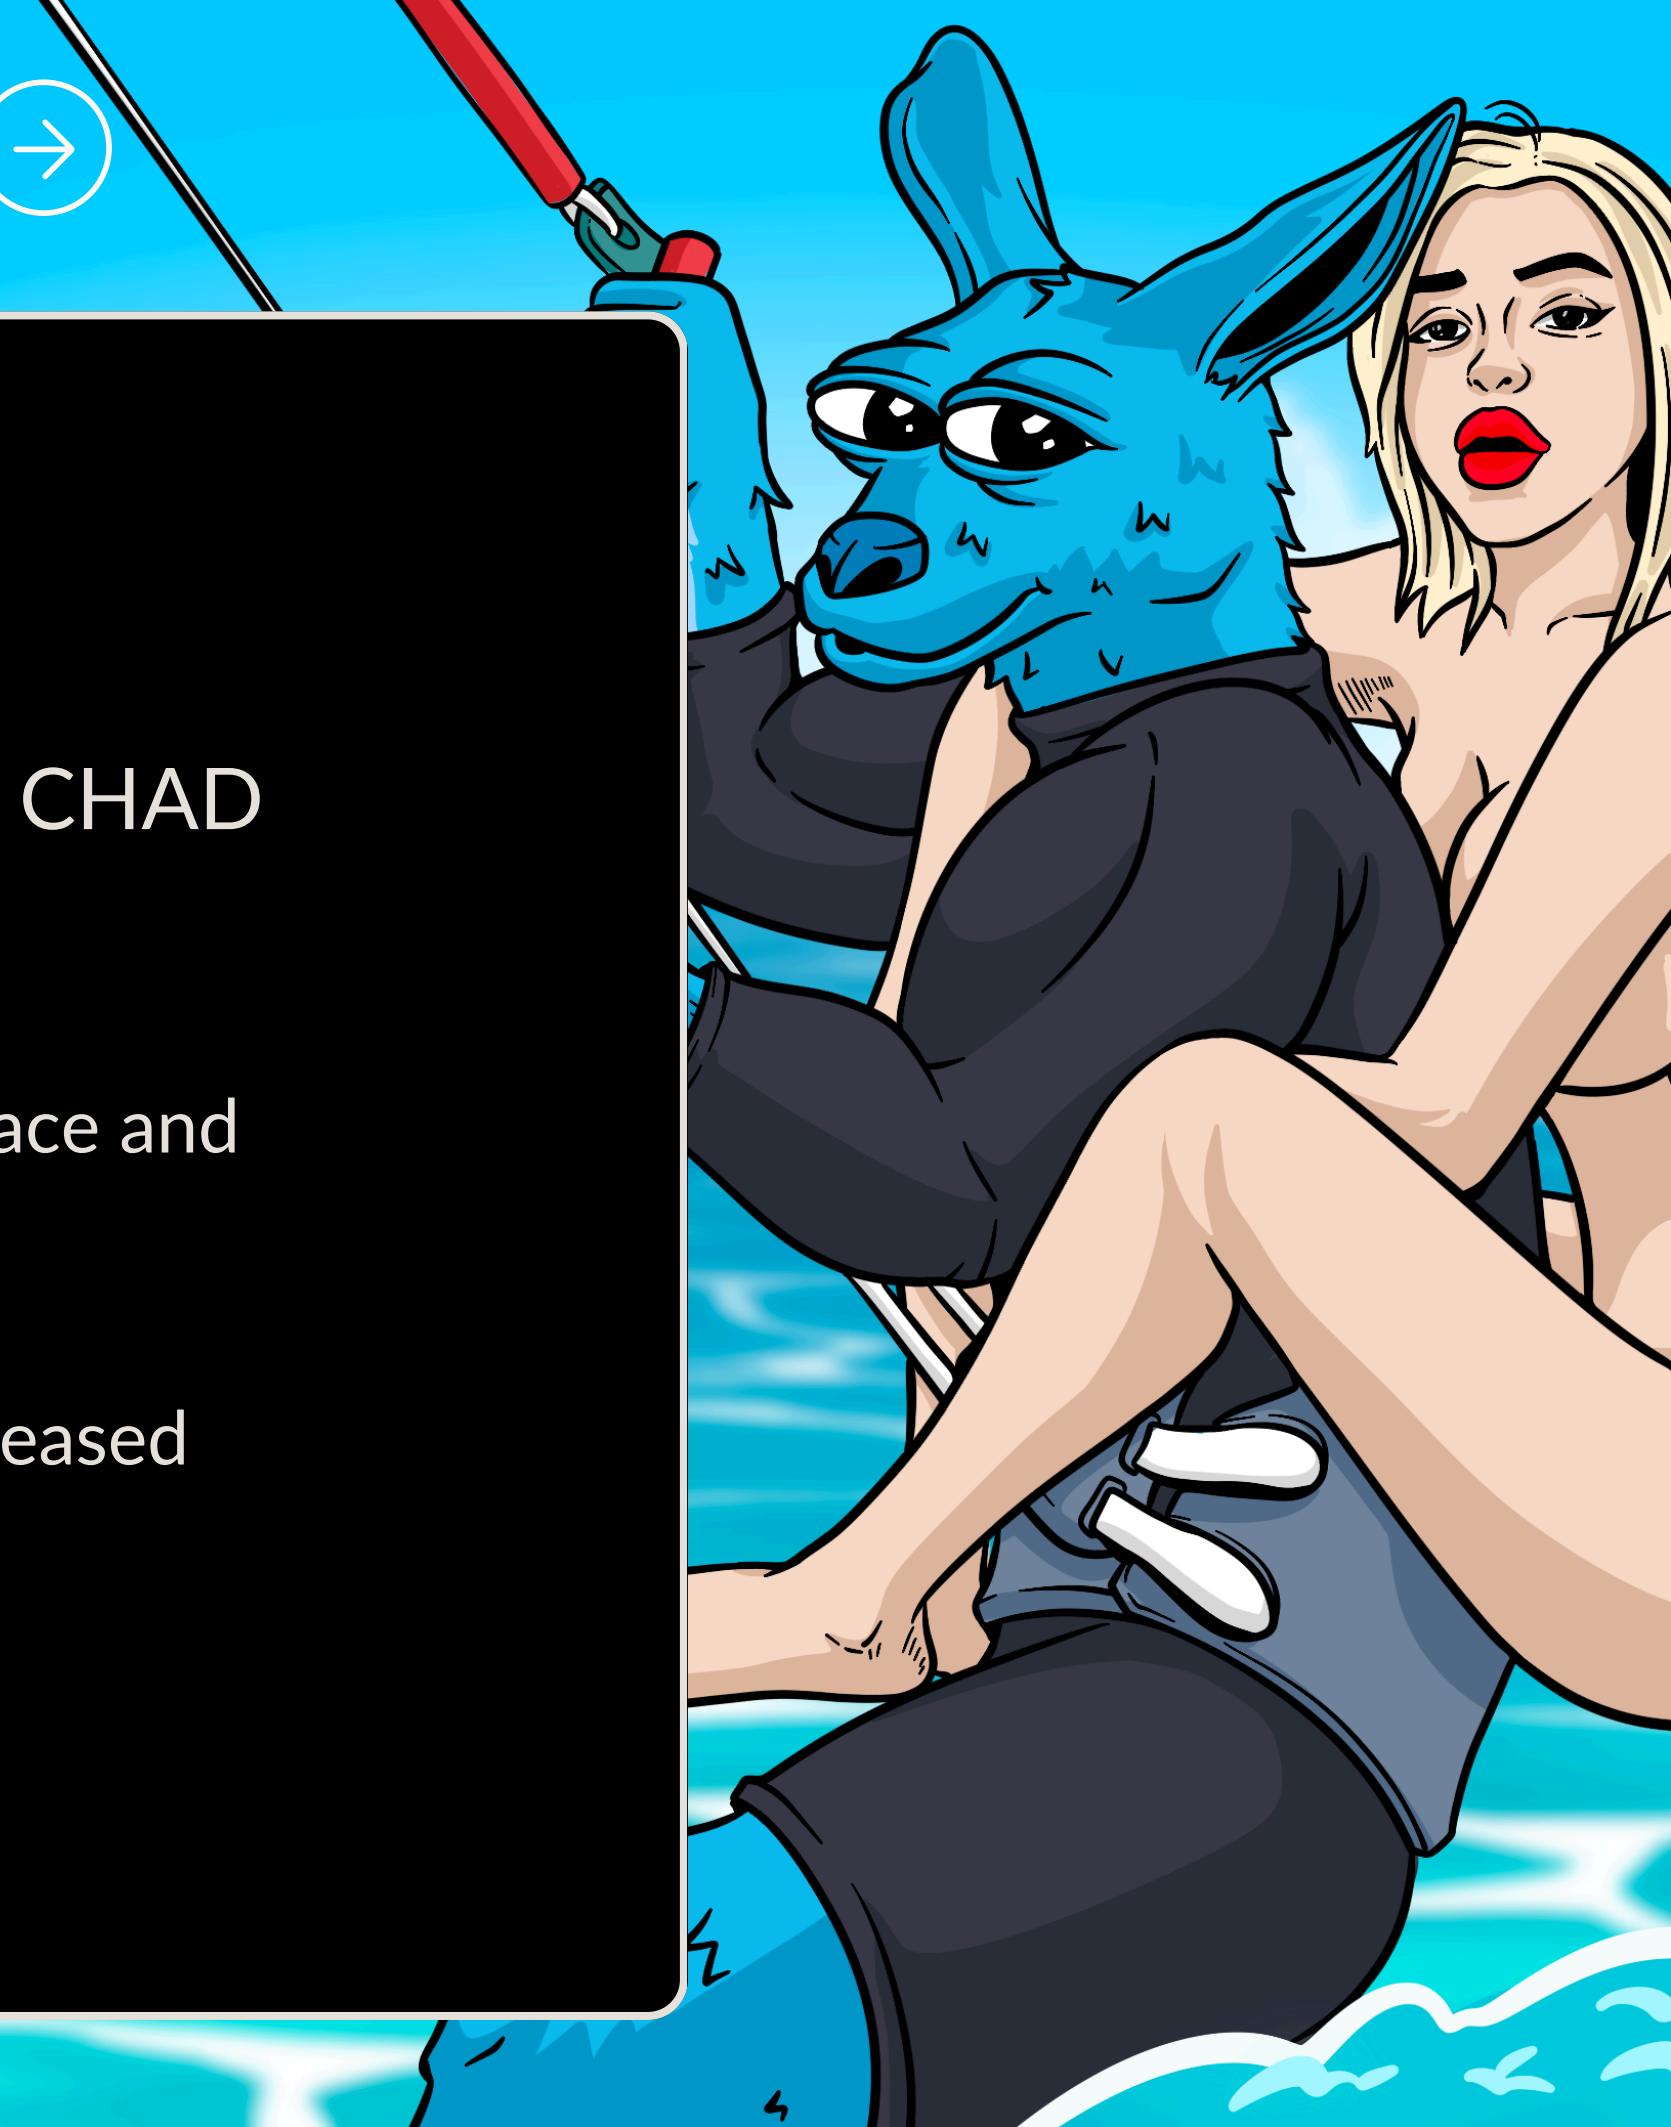

\$CHADRU COIN

# INTRODUCTION

CHADAROO is a Project Inspired by GIGA CHAD and Kangaroo Roger

We want to bring more joy to the Web3 space and build a product that is really enjoyable and profitable. Our mission here is to utilize our \$CHADRU coin in our Game that will be released after the Launch in June.

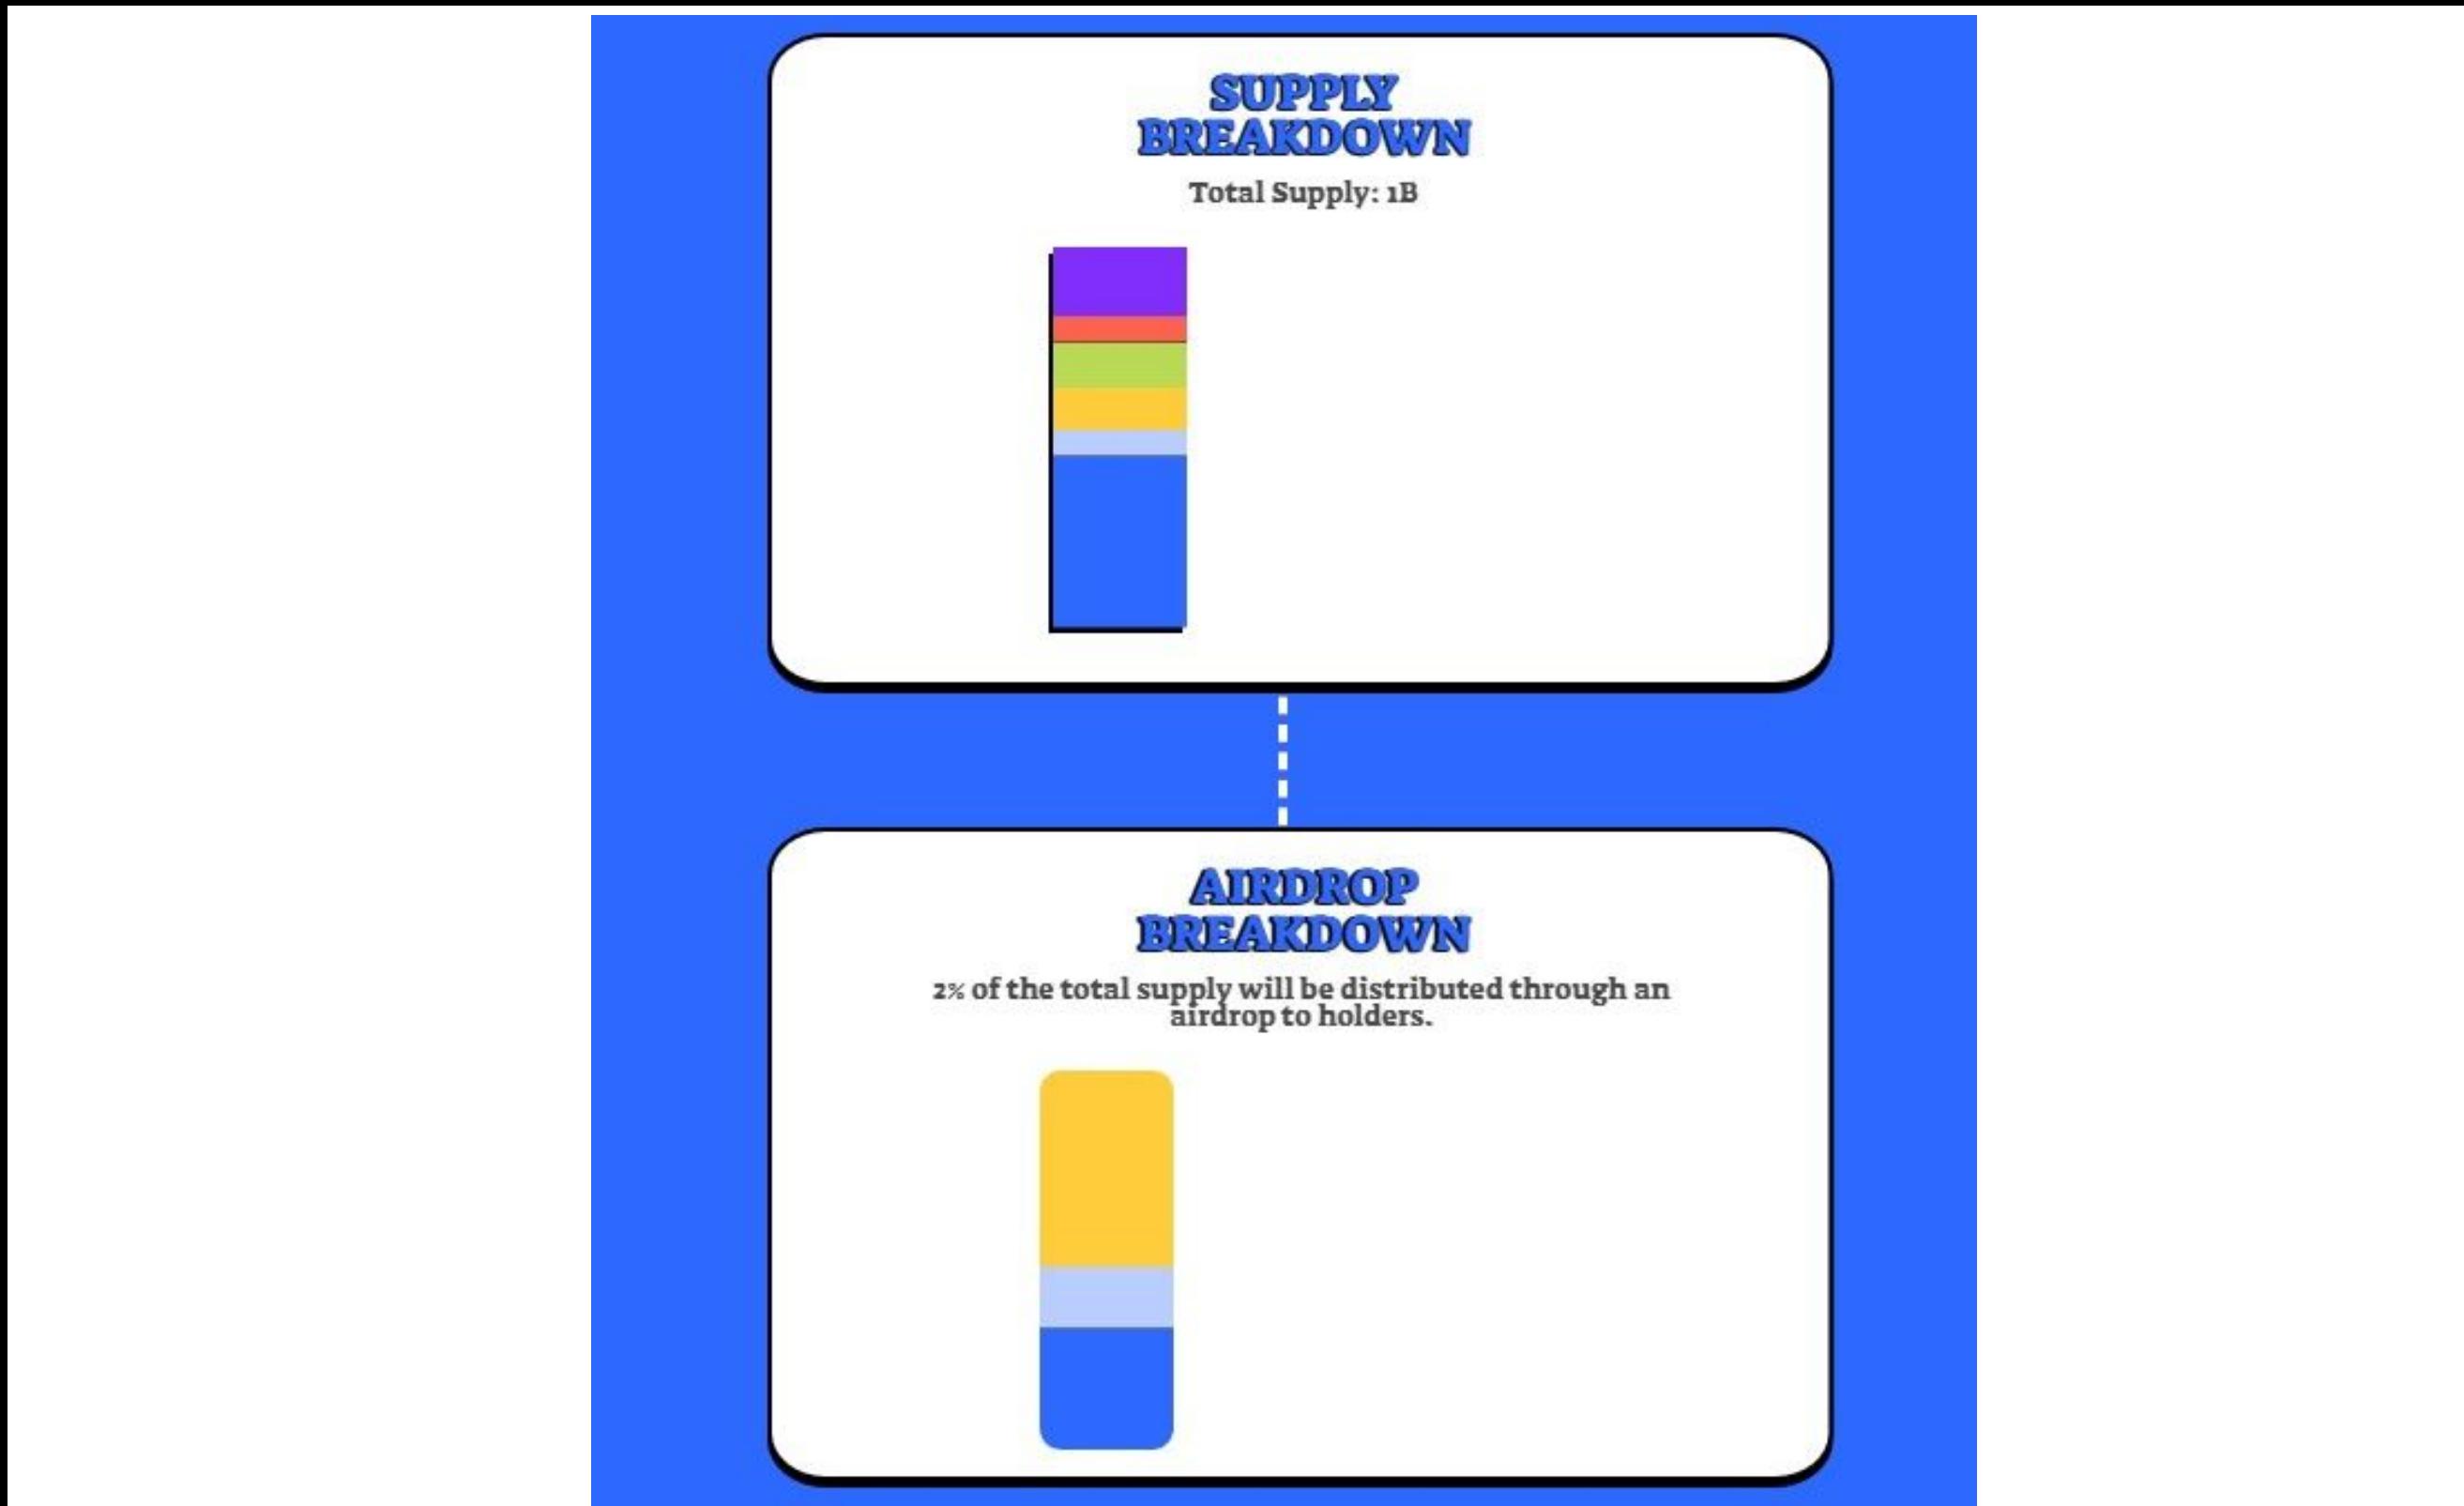

# ABOUT

We are so tired of those AI-generated 1 Day Coins with poor branding and no plans beyond the Launch, that's why we developed a funny character and always keep building and straightening the brand around it.

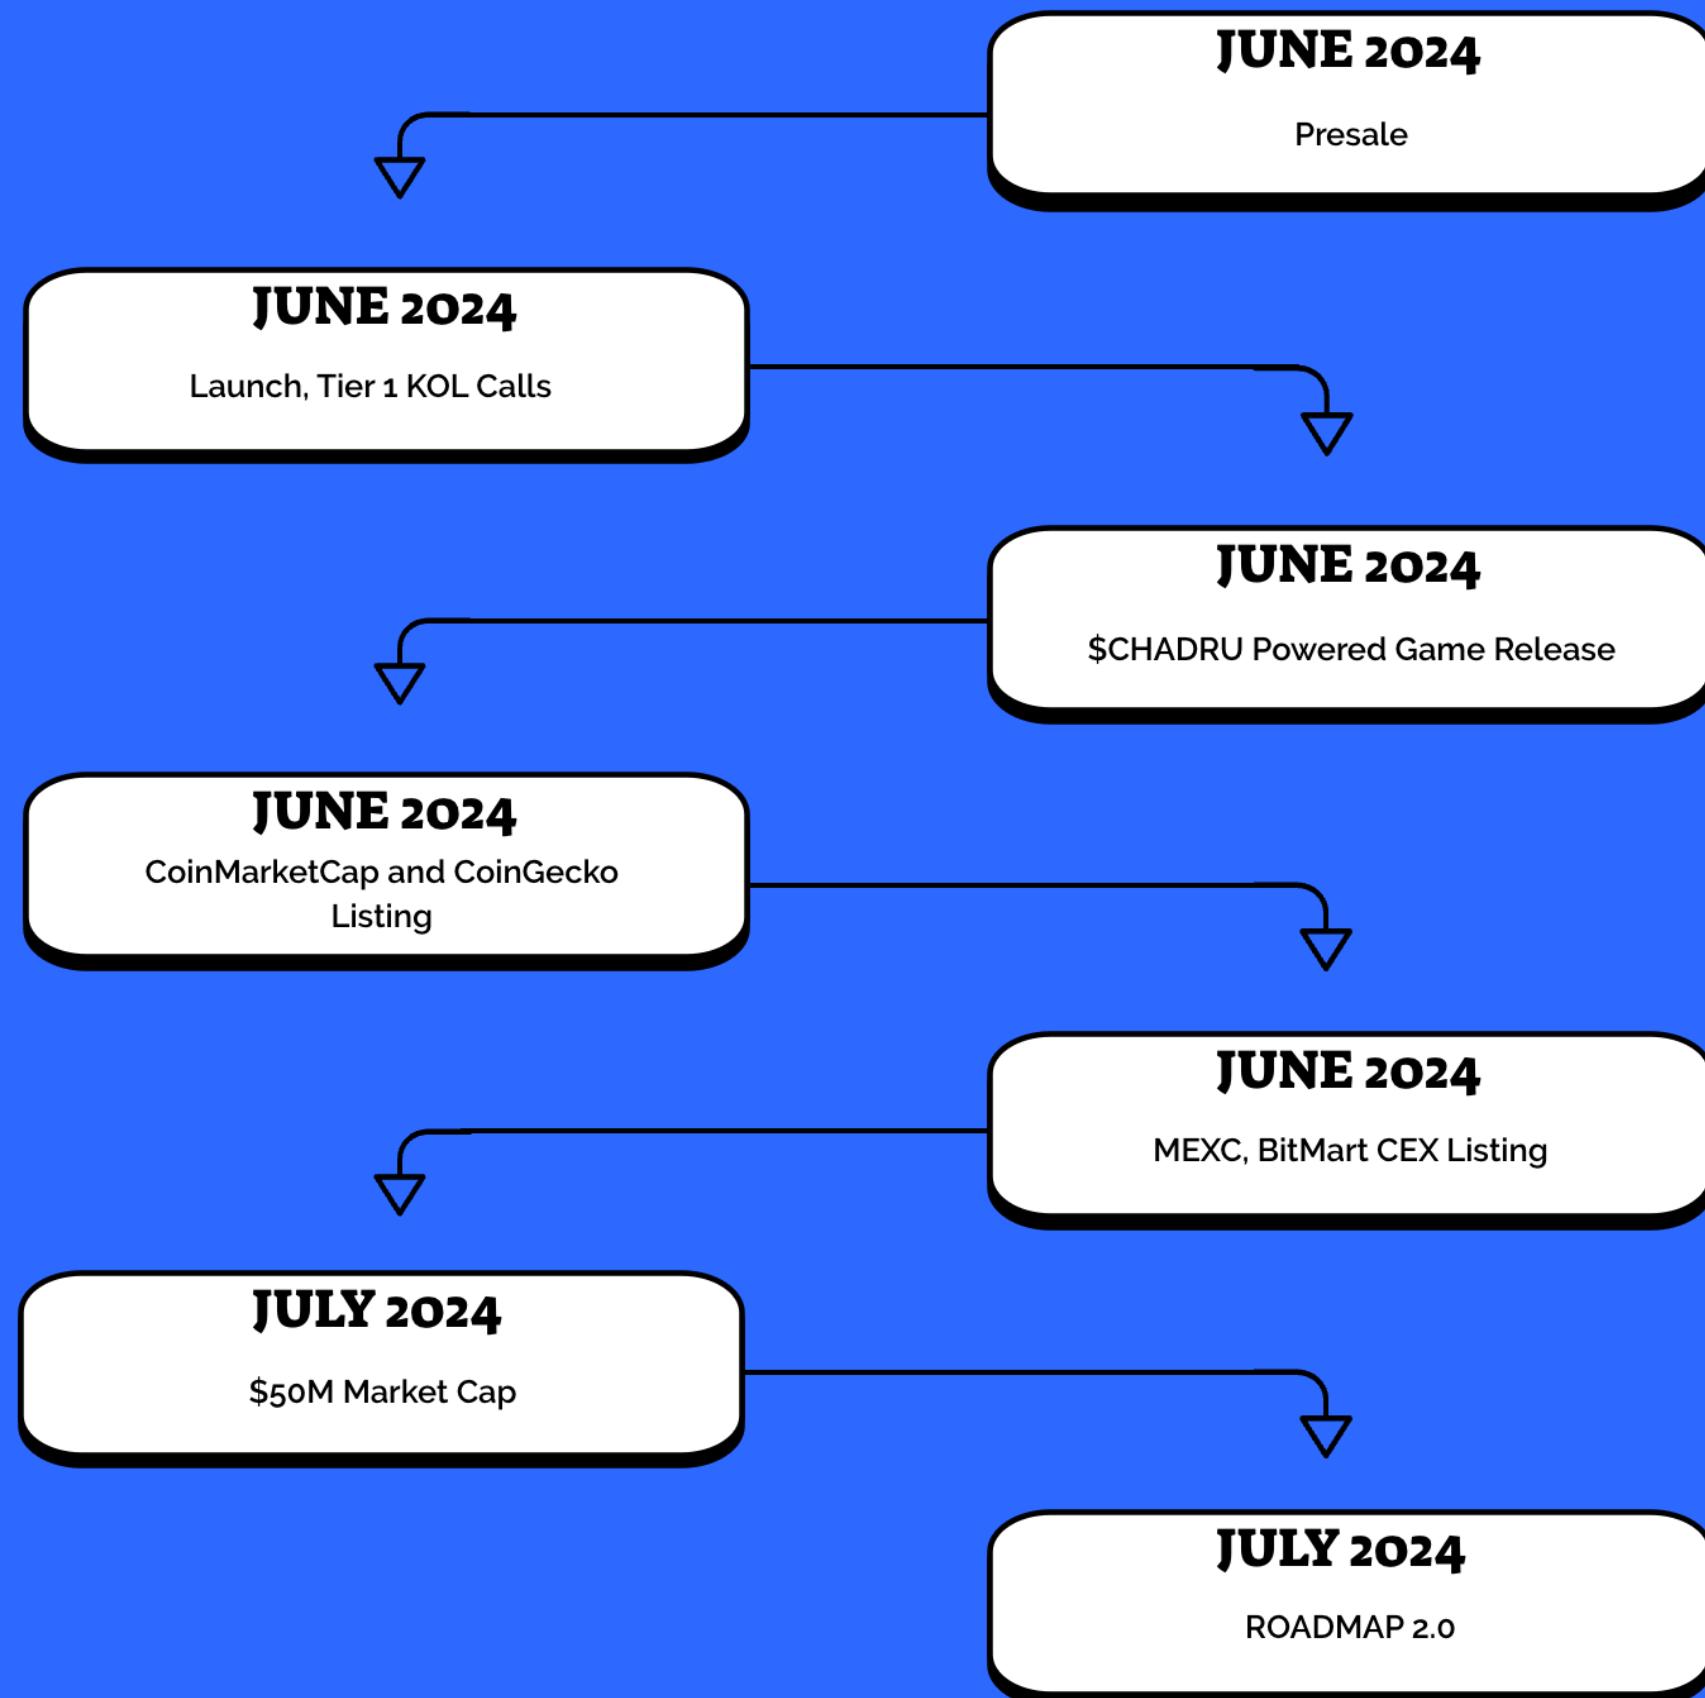

The TOP CHAD is here to build a strong community and bring the next generational wealth to those who believe in the project and stay strong with us.

# \$CHADRU TOKENOMICS

# ROADMAP

# CHADAROO GAME KEY POINTS

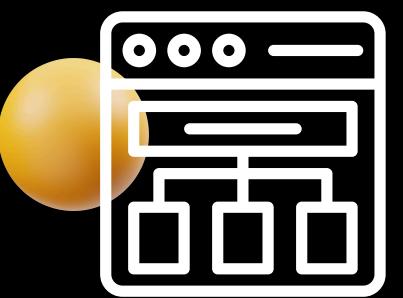

## \$CHADRU POWERED

The game will be using \$CHADRU as a currency. You will be able to bet a certain amount of coins and play the game, if you complete the level, you will multiply your initial bet.

## EASY TO PLAY

The game will be with the same mechanics as Super Mario but with a bit different gameplay, so anyone can easily handle it.

## RANDOM GENERATED MAPS

Every session will be unique because each level will be randomly generated by the system which will give you the most fair and unique experience.
